PROJECTS

Spotify Interface ([Link](#)) : This project is a static website designed to showcase a clean and simple layout. Developed using HTML and CSS, it emphasizes a user-friendly interface and responsive design. The website features organized content sections, clear navigation, and visually appealing styling, making it an ideal foundation for those looking to learn web development basics.

Weather application ([Link](#)) : This weather app provides real-time weather information based on user input. Built using HTML, CSS, and JavaScript, the app allows users to enter a city name and view current weather conditions, including temperature, humidity, and wind speed. It dynamically updates the weather data and displays it in a user-friendly format.

Photography page ([Link](#)) : This website is static and simple project , developed using HTML and CSS.

Grocify ([Link](#)) : This is a grocery website which is static and simple , developed using HTML and Tailwind CSS.
