WORK EXPERIENCE

FRONTEND DEVELOPER INTERN | HK Technical | LINK :   January 25 – Present

- Building visually appealing, responsive, and user-friendly interfaces.
- Writing HTML, CSS, and JavaScript to develop the frontend components of web applications.
- Continuously learning new frontend technologies and tools, as the web development landscape is always evolving.

PROJECTS

GARHBHOJ | LINK : A modern and responsive food website designed to showcase a variety of delicious dishes. Build using HTML, CSS, JavaScript & Bootstrap.

PERSONAL PORTFOLIO LINK : A website that showcases my skills, projects and experiences with a responsive design & modern carousel. Build using HTML, CSS, JavaScript, Swiper.js and jQuery.

WEATHER APPLICATION | LINK : This weather app provides real-time weather information based on user input. Built using HTML, CSS, and JavaScript, the app allows users to enter a city name and view current weather conditions, including temperature, humidity, and wind speed.

GUESSER GAME | LINK : Created a simple console-based guessing game in Java, utilizing Object-Oriented Programming (OOPs) principles. The project focuses on basic concepts like classes, methods, and user input handling, designed to run in a code editor for interactive gameplay.

CERTIFICATES

FULLSTACK DEVELOPER | CERTIFICATE :   **March 2024**

- Learned about front-end and back-end technologies.
- Combine frontend and backend technologies to build end-to-end web applications.

NODE.JS DEVELOPER | CERTIFICATE :   **June 2023**

- Learned creating RESTful APIs and working with modern frameworks like Express.js.
- Practical knowledge of connecting Node.js applications to MySQL.
